License Check Out Select a site to configure: Bentley Melbourne Office (1001464821)

This page allows you to create a checked out license for one or more applications. Select the Site you wish to charge the checked out license to from the Sites drop down above.

Note: You can only check out a license for XM Edition applications through the admin interface. If you need to check out a license for an application release prior to V8 XM edition, you will need to check out the license from the client machine.

Saved file:

<!-- Attached are license(s) for the following applications:

gINT Professional Plus

The license(s) can only be used on the computer name: "gint-001"
The term(s) and expiration date(s) for the application(s) are as follows:

| | |
|------------------------|-----------|
| gINT Professional Plus | 5/06/2011 |
|------------------------|-----------|

Installing Your License(s):

The license(s) must be installed on gint-001 before it will be recognized by the product(s).

Step 1: Save the attached file (Microsoft Outlook)

1. Select "Save Attachments" from the File Menu
2. Navigate to the directory you want to save the file in.
3. Click the save button.

Step 2: Start the License Tool

From within the application

1. Select "License Management" from the "Utilities" Menu.
- Or
1. Click the Windows "Start" menu
 2. Select "All Programs"
 3. Select "Bentley"
 4. Select "[Application Name]"
 5. Select "License Management Tool"

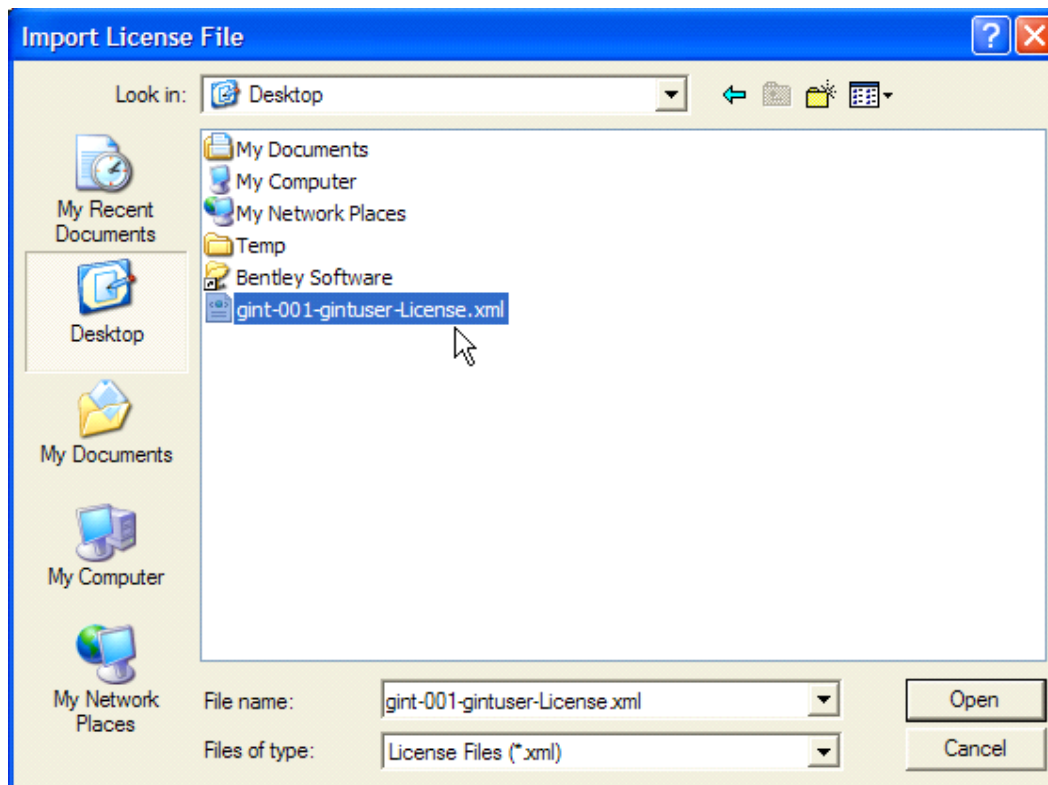

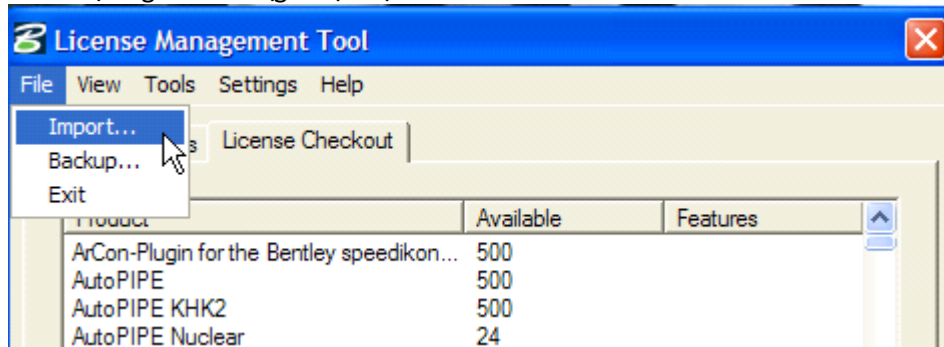

Step 3: Import the license file

1. Select "Import" from the "File" menu in the Bentley License Management Tool
2. Navigate to the same directory you saved the license file to in step 1.
3. Click the "Import" button
4. Close the "License Tool" (Select Exit from the "File" menu)

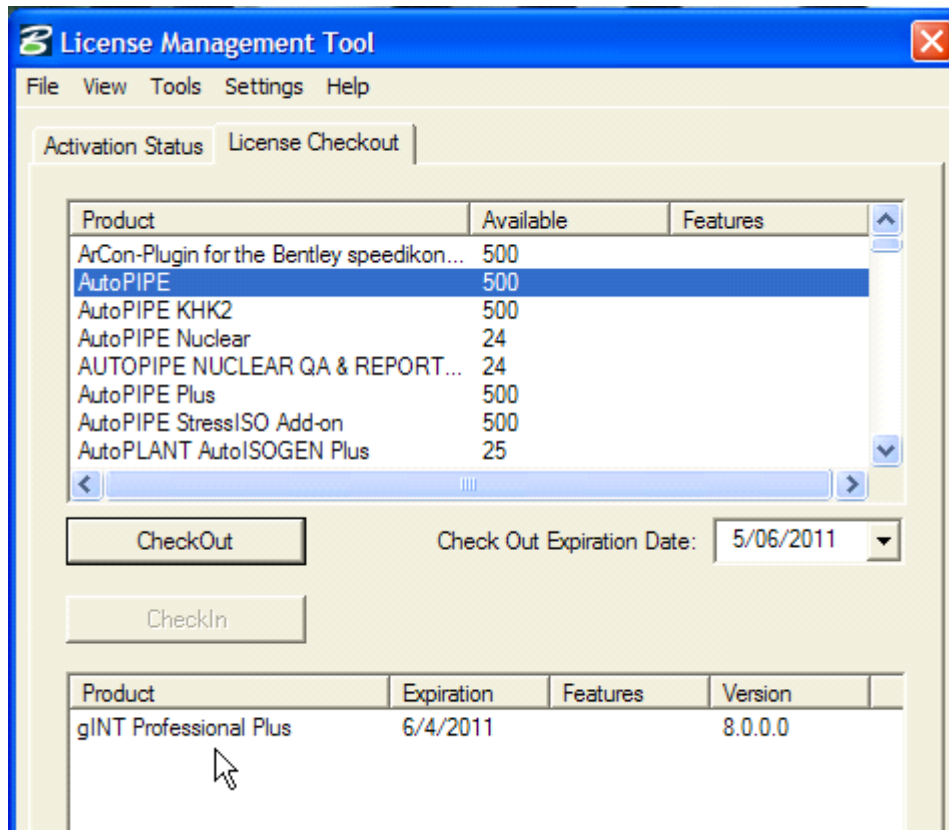

Note: If the product(s) are currently running, you will need to restart them in order for your new license(s) to take effect.
